## FOREIGN TRAVEL POLICY

### Preamble

The SVKM management is pleased to issue the enclosed Foreign Travel Policy, which becomes applicable across all the institutions and the central office of SVKM with immediate effect.

The opening up of the education sector and the globalization in the various spheres of life have created reasons to consider foreign travel for purposes like exploration of international opportunities, linkages, participation in intellectual events, research and spread of education. The SVKM management, within its limitations of being an educational institution, desires to pursue such benefits, to the advantage of both the employee and the trust. Foreign travel, in that sense, is not a matter of right or perquisite, but an opportunity for intellectual enlightenment and a welfare measure. A reciprocation by the employee by being careful about the travel expenses, as if they were being incurred at his personal cost, is expected.

The enclosed policy is worded as the Foreign Travel Policy of SVKM's NMIMS University. However, references to various authorities at NMIMS are to be construed as referring to equivalent such authorities in the other institutions and the central office of SVKM.

## 7. **Other Points**

### 7.1. **Reporting and Sharing:**

7.1.1. Foreign travel is a valuable experience, worthy of sharing, and more so in an educational institution. While some of the sharing and reporting is mandatory under the policy, the rest is recommended and encouraged.

7.1.2. The travelling employee will submit a Travel Report, alongwith his foreign travel expenses statement. The Travel Report will cover the purpose of his travel and other relevant factors related to the purpose of travel. For example, if the foreign travel was for paper presentation, then details about the conference, with particular focus on the session in which his paper was presented, and on his presentation. Similarly, if it was for a training programme, then brief details of the same may be reported.

‘Foreign travel expenses statement’ will not be processed and settled, unless the Travel Report is attached to it.

7.1.3. The travelling employee will make a presentation to a group comprising of his colleagues, HOD, Dean and other concerned employees of the University and other institutions of SVKM, dealing in greater detail with the subject matter of his report, within a reasonable time frame, after his return.

7.1.4. The places visited by the travelling employee may be captured on video films or photographs, if, in the judgment of the employee, such shooting will be useful for the institutional development. The employee will be reimbursed the cost thereof. An example of such places could be a well equipped and designed laboratory, library etc.

7.1.5. He may have done video shooting, taken photographs or collected other information of general interest about the places visited by him. This policy encourages the travelers to share such articles of information and human interest.

7.2. **Linkages and networking:** Every foreign visit gives the traveler a scope to personally interact with educationists from different parts of the globe. Such limited interactions may have the potential to go a long way in the years to come. Every employee of the University who undertakes foreign travel is expected and encouraged to interact with as many counterparts as possible, create personal linkages and nurture as well as institutionalize them.

### 7.3. **Accounting Treatment**

7.3.1. All expenses incurred by the employer for purchase of air tickets, visa charges, insurance, advance to hotel etc. will be shown as advance paid

to the travelling employee. Similarly, foreign exchange provided to the travelling employee by the employer will be booked as advance to the employee.

- 7.3.2. Only after proper submission of foreign travel expense statement with necessary supporting bills/receipts, and travel report, will the expense statement be approved by the immediate superior of the traveler, and thereafter by the Finance Controller. After that approval the expenses will be booked and advance reduced from the account of the employee. Delay in completion of paper work, will thus show large advance outstanding in the name of the travelling employee.

## **Rules for Consulting at NMIMS University**

### **Introduction :**

Consulting enriches / assignment the quality of faculty instructions. It also helps them to initiate research and case development exercise. The best known professors in management both internationally and nationally are today valued by the corporate, principally because their interventions have benefited the corporates.

NMIMS also has grown on the strength of such consulting interventions by its faculty. These rules have been framed to enable faculty take up these assignments and create/enhance their and University's equity in corporate and non corporate sectors.

### **1. What constitutes consulting**

Any paid external assignment including teaching - a part or full course at a national or international institution will be considered as a consulting assignment.

### **2. Exemptions**

- i) Royalty from books and monographs
- ii) Fees received from paper reviews for any journal or conference, honorarium received from publication of research papers.
- iii) Examinership at Doctoral level
- iv) Income from Guest Lectures in other institutions
- v) Honorarium and prizes earned for professional accomplishment
- vi) Corporate / advisory / research board membership and hence sitting fees received on account of such membership
- vii) Board membership in the form of sitting fees / remuneration of independent directors
- viii) Income from MDPs upto Rs.20,000 per company programs.
- ix) Income from any work given by SVKM or its institutions.

### **3. Type of consulting assignments**

Following are the type of assignments that will qualify as consulting assignments.

- i) Training or customized management development programmes for corporates.
- ii) Project based assignments involving projects assigned by the client.

iii) Retainerships involving sustained involvement with the client on regular payment of fees.

**(A) Institutional and Personal Consultancy :**

All assignments will be institutional in nature. While individual faculty members are encouraged to aggressively seek, negotiate and finalize the assignment, the final contract will have to be between the School and the company.

#### **4. Consultancy Time**

Generally faculty would be permitted to avail upto 52 days of consulting work in one financial year from 1<sup>st</sup> April to 31<sup>st</sup> March. If a faculty is entitled for a vacation, then maximum 40 days, excluding vacation period, can be utilized for this purpose. A record of consultancy days needs to be submitted every month to the Dean of the School. The number of consulting days to be permitted for the assignment will be decided by the Dean subject to the ceiling of 52 days in a year.

#### **5. Financial arrangements**

For the purposes of working on the cost on the consulting assignment, the professional fee for the faculty time will be minimum Rs.25,000 per faculty per day. There is no upper limit on faculty fees. Further these rates may not be applicable to consultancy assignments received from government, semi-government or local government authorities. All expenses will have to be recovered from the clients. In case of training programmes where institutional facilities are used like MDP or classroom, the rates for use of these facilities will be prescribed from time to time. All catering expenses will be recovered from the clients on actual basis. All travel, both within Mumbai and outside Mumbai, will have to be paid by the client. Same is true for boarding and lodging expenses.

Institutional overheads like cost on account of telephone, internet, secretarial assistance, charges for use of classrooms, payment to the support staff and other institutional overheads to the tune of 25% or minimum of Rs. 10,000 per day whichever is higher of estimated cost for consultancy work will be deducted from the total receipts. This will take care of the indirect cost. The faculty NMIMS should be paid (in case of MDP's or any other classroom training programmes) as per prescribed rates for visiting faculty. This should be treated as the direct cost along with the extra remuneration to be paid.

After providing for institutional overheads and the direct cost, surplus, if any, will be shared @ 70:30 between the concerned faculty members and the School. If consultancy work has been generally undertaken by more than one faculty, sharing of 70% surplus amount be shared by these faculty members

and the Coordinator, on the basis of the sharing decided a priori by the Dean. All billings will be done by the University Accounts Office.

## **6. Approval**

- All consulting assignments of faculty will require Dean's prior approval. In case of assignments involving Dean, Pro-Vice Chancellor, Vice Chancellor, prior approval of Hon'ble Chancellor will be required for both assignment and fees.
- No consulting assignments will be taken which comes in conflict with class commitments or any other University commitments.
- Also there should be no conflict of interest in the assignment between the institution and the client.
- All requests for approval have to be made in prescribed format.
